April 24, 1996

Dear Mrs. Weisberg,

It's been some months since I last corresponded with you and ordered the book, "Oswald In New Orleans." I thought about you both as I seriously studied the book and continue to research in my own way of the events over thirty years ago. It amazes me that so few "good" books have been written concerning J.F.K.'s assassination; there appears to be such a bandwagon of useless material out there, sensationalism and one of my favorite terms, "tabloids." I do keep a very open mind to books, journals and the like that are printed about J.F.K.'s murder; I've established quite a library over the last seven years in which I've been a serious student, but the books that your husband has written (I have all of them) are at the apex of my book shelf. This being a constant reminder to me of one mans pursuit of "truth". and encouragement for me to continue to let others know of a lot of still hidden truths that need to see the light of day.

Again thankyou both and may God continue to Bless and Keep you.

Sincerely yours
Elwyn F. Coates
